FORM PCT/ISA/205 (January 1994)

Box III    TEXT OF THE ABSTRACT (Continuation of item 5 of the first sheet)

A device (8) such as a multitasking mobile telephone or personal digital
assistant (PDA),comprises a processor (15) and a  user interface including
keys(10,11) and a display (12).In response to a request from a user to view
a menu,the processor (15) compiles a list of menu options and determines the
status of applications or functions assiociated with the menu options.
If the menu option relates to an active application,an indicator is
added to the list of menu options.The menu is displayed with the active or
inactive status of the applications represented using animated icons(26a-c),
colour of text (25 a-c) and /or icons (28a-c),sound,vibration or a
combination of two or more of these properties.These properties may also
be used to indicate the type of task being performed by an application.
